### 2.1. SELECTION OF ATHLETES

The Gold Medal Winner and another Drawn Medallist from the rest (TWO tests PER WEIGHT CATEGORY contested)

### 2.2. SELECTION OF ATHLETES

The summons for the doping test is handed by an escort or EJU doctor to the competitor selected to the doping control after her/his last fight, when the athlete is leaving the restricted area. Another system to give the notification to the athlete can be used if EJU Doctor, Sport Director in charge and Chief of Chaperons so decides. The Notification Form to the athlete has to be handed latest when the athlete comes down from the podium after the Award Ceremony. The escort writes the time on the form. The athlete must sign the form and have a copy. The escort gives the original one to the doping control staff, who records the actual time of arrival on the summons, signs it and verifies the identity of the competitor (ID card, passport ...). The Athlete has to register by maximum 60 min. after he/she has signed the notification form (including press) at the doping control station. The escort has to be physically beside the competitor and keep the competitor under observation (visible) all the time and accompany her/him to the waiting room at the Doping Control Station (DCS). Interruption of the doping control procedure is allowed only for victory ceremonies. During the interruption the athletes have to be under observation of the escorts at all times. A person may accompany the competitor to the Doping Control Station and may watch all procedures except urination.

### 2.3. SAMPLE TAKING PROCEDURE

Only one competitor at a time shall be called into the test room (= working room, consulting area).

The competitor shall select by her/himself a urine collection vessel and check it. After that she/ he goes into the toilet accompanied by DCO. She/he have to wash her/his hands **without soap** and dry them. Then he/she urinates a minimum of 90 ml into the collection vessel under observation of the Doping Control Officer who must be of the same gender as the competitor. After the collection vessel is full or minimum 90 ml urine has been produced she/he must empty her/his urinary bladder. Any clothing preventing the direct observation of the urination shall be removed.

When requested urine volume of 90 ml (minimum) has been provided, the competitor shall select a urine control kit, open and check it and pour by her/himself 30 ml (minimum) first into bottle B and then 60 ml (minimum) into bottle A. Few drops of urine shall remain in the collection vessel to check specific gravity. The competitor shall close the A and B bottles hermetically. The remaining urine is to be destroyed after sealing of bottles A and B. If the amount of urine is less than 75 ml, partial sample kit or temporary sealing is needed.

If the amount of urine is less than 90 ml, partial sample kit or temporary sealing is needed. The specific gravity must be 1.010 or higher (stick) or 1.005 or higher in case of refractometer has been used. If not, another sample is needed.

*It is the responsibility of the Athlete to provide a Sample with a Suitable Specific Gravity for Analysis. If his/her first Sample is too dilute, he/she should not need further hydration and therefore should avoid drinking as far as possible until a Sample with a Suitable Specific Gravity for Analysis is provided.*

The DCO should continue to collect additional Samples until the requirement for Suitable Specific Gravity for Analysis is met, or until the EJU doctor determines that there are exceptional circumstances, which mean that for logistical reasons it is impossible to continue with the Sample Collection Session. Such exceptional circumstances shall documented accordingly by the EJU Doctor. ( According to WADA IST : Number of urine samples is as many as needed to get suitable SG. There is no time limit, neither)

If it is determined that none of the Athlete's Samples meets the requirement for Suitable Specific Gravity for Analysis and the EJU doctor determines that for logistical reasons it is impossible to continue with the Sample Collection Session, the EJU doctor may end the Sample Collection Session. In such circumstances, if appropriate the ADO may **investigate a possible anti-doping rule violation**.

The competitor shall declare any medications, vitamins, herbal products, food supplements that were ingested in the previous 7 days. The competitor shall certify, by signing the protocol form, that the procedure has been performed according to the rules of EJU. Any irregularities e.g. problems to keep order etc. identified by the competitor, accompanying person, officers or EJU doctor shall be recorded.

The Doping Control Officer, accompanying person (if present) and EJU doctor (if present and seen the whole procedure) sign the Doping Control Record.

The competitor shall be given a copy of the Form, and EJU doctor an original and rest of the copies of the form. After the test procedure he/she and the accompanying person must leave the station.
